## **ALUMINIUM EXTRUSIONS EXPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA**

### Measures

Anti-dumping and countervailing measures have been imposed on aluminium extrusions exported from the Peoples Republic of China (China).

### Description of the goods

The aluminum extrusions covered by measures:

- are produced by an extrusion process;
- are of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents);
- have finishes being:
  - as extruded (mill);
  - mechanical;
  - anodized; or
  - painted or otherwise coated, whether or not worked;
- have a wall thickness or diameter greater than 0.5 mm;
- have a maximum weight per metre of 27 kilograms; and
- have a profile or cross-section fitting within a circle having a diameter of 421 mm.

Goods subject to measures should be classified using the tariff sub-headings and associated statistical codes contained in Table 1.

**Table 1 - The tariff subheadings and statistical codes subject to measures**

<b>Tariff subheading</b>	<b>Statistical codes</b>
7604.10.00	06
7604.21.00	07, 08
7604.29.00	09, 10
7608.10.00	09
7608.20.00	10
7610.10.00	12
7610.90.00	13

### Exempt exporters

There is one exporter exempt from both anti-dumping and countervailing measures: Tai Ao Aluminium Tai Shan Co Ltd (Tai Ao). Exemption type 'SUPPLIER' applies to aluminium extrusions manufactured by Tai Ao and either exported directly by Tai Ao or supplied through Phoenix Endeavour Ltd.

There is one exporter exempt from anti-dumping measures only: Zhaoqing New Zhongya Aluminium Co Ltd (New Zhongya). Countervailing measures apply to aluminium extrusions manufactured by New Zhongya and either exported directly by New Zhongya or supplied through Zhongya Shaped Aluminium HK Holding Ltd.

All other exporters are subject to anti-dumping and countervailing measures as advised in Table 3 below.

### Dates of Effect

Anti-dumping and interim countervailing measures were initially imposed on 29 October 2010 and were last revised on 27 August 2011.

### Identifying the goods subject to measures

Table 2 provides guidance to importers and brokers to assist in the categorisation of aluminium extrusions into the types covered by interim duties (GUC), and those not covered (Non GUC). In most cases, extrusions classified to headings 7604 or 7608 would be subject to interim dumping and countervailing duty.

Importers should use the table to categorise their goods and decide whether dumping and countervailing duties apply.

## ALUMINIUM EXTRUSIONS EXPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA

**Table 2: - The goods covered by measures**

< GUC >				< Non GUC >		
1	2	3	4	5	6	7
Aluminium extrusions	Aluminium extrusions with minor working	Aluminium extrusions that are parts intended for use in intermediate or finished products	Aluminium extrusions that are themselves finished products	Unassembled products containing aluminium extrusions For example,	Intermediate or partly assembled products containing aluminium extrusions	Fully assembled finished products containing aluminium extrusions
< Examples >						
Mill finish, painted, powder coated, anodised, or otherwise coated aluminium extrusions	Precision cut, machined, punched or drilled aluminium extrusions	Aluminium extrusions designed for use in a door or window	Carpet liner, fence posts, heat sinks	Kits that, at time of import, comprise all necessary parts to assemble finished goods. For example, shower frame kits, window kits, unassembled unitised curtain walls	Unglazed window or door frames	Windows, doors

### Direction for collection of interim dumping and interim countervailing duties

Goods subject to the measures must be entered using the relevant dumping specification number (DSN) for the nominated exporter/supplier as shown in Table 3.

The interim duty rates and the ascertained export price (AEP) for each DSN are shown in Table 4.

The amount of interim countervailing duty (ICD) and interim dumping duty (IDD) payable shall be:

- the dumping export price (DXP) multiplied by the interim countervailing duty ad valorem rate; plus
- DXP or ascertained export price (AEP), whichever is the greatest, multiplied by the interim dumping duty ad valorem rate (as applicable); plus
- the amount, if any, by which the DXP is less than the AEP (as applicable).

### Release of details of measures

The interim duty rates and the ascertained export price (AEP) for each DSN in Table 4 are considered Confidential and will not be published.

Bona fide importers of the goods may be provided with the confidential information relevant to a nominated exporter/supplier. Unless an importer is able to demonstrate a trading history with the nominated exporter/supplier, no confidential information for that exporter/supplier will be provided.

Where no prior pattern of imports exists, evidence of an offer, quotation or acceptance of an order from a nominated exporter/supplier is considered the minimum requirement before confidential information relevant to that exporter/supplier may be disclosed.

Customs will conduct monitoring of imports consistent with its published policy.
